Workshop 1 agenda draft 08-21-12.docx

Erin,

I take it that you will respond to Brock for all of us on our joint presentation?

Jeffrey

Attached is an updated agenda for the upcoming Bay Delta workshop on September 5 and 6. It includes an initial presentation from the Invited Panel, followed by six panels representing the range of interested parties. The Invited Panel is allocated 90 minutes. Each subsequent panel has 85 minutes for presentation time followed by 15 minutes of Q&A with Water Board members.

Please review the agenda, including the detail listing presenters and topics, for accuracy and completeness. Note that there are some holes where I don't yet have a topic for a presenter. Please get that to me by next Monday at the latest. I'm assuming that you will have reviewed written submissions by then and made any needed adjustments to your presenter list.

I'm also assuming that you are coordinating with other members of your panel to ensure that your combined presentations will fit within the allotted 85 minutes of presentation time. Let me know if you have any requests to change the order of speakers as they currently appear.

Looking ahead to the workshop itself, the hearing room has excellent audio visual equipment, including computer and projector. If at all possible, I would appreciate your emailing me your presentation ahead of time (with a copy to Valerie Holcomb) so that we can load them up onto a memory stick and ensure they get put on the Board's computer in the hearing room. On the other hand, if you have very large presentations, you are free to come to the hearing room before the workshop starts each morning and load them onto the computer yourself. We will be there by 8:00 AM both days.

I'll be in the office through tomorrow morning but then out at a meeting Thursday and Friday. I'll be back in the office Saturday to check on emails and phone messages.

I'm starting to work my way through the written materials you submitted last Friday and am really impressed with the thought and effort that went into them.
